Kenneth Wilhelm and one of his lawyers handled my slip and fall case. It was devastating because my leg, knee, shin and ankle were broken as a result of the accident. My injuries caused me so much pain. To make matters worse, my mother had just passed away and my landlord was unresponsive to the several requests I had written for him to fix my apartment.

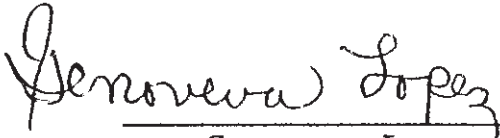

I usually do not like lawyers and was hesitant about any legal action, but the minute I called Mr. Wilhelm's office, they were so wonderful, so professional and so sympathetic. I never knew lawyers could be such real people. As promised, Kenneth A. Wilhelm's law firm came to help me in two hours. I could not believe it. They told me not to worry and I did not have to. Everything from the medical files to x-rays to legal case processing was done on my behalf.

During the course of my case, I suffered from a stroke but the Law Offices of Kenneth A. Wilhelm moved the case as quickly as possible, resulting in a large settlement that I did not know was possible at the time. If a friend of mine were to ever seek professional legal help, I would place Kenneth A. Wilhelm in high regards. I believe that they will secure the right settlement and obtain justice and honor for their clients.

Even if I do not have a specific case, I can go to them for advice especially since Mr. Wilhelm himself calls me from time to time to see how I am doing. Even though my case is now finished and the Wilhelm Law Firm was paid, Mr. Wilhelm still cares about me. The Law Offices of Kenneth A. Wilhelm never forgets about their clients. They are a firm with a heart and compassion with an intelligent and wonderful team of employees.

I would never go anywhere else other than the Law Offices of Kenneth A. Wilhelm.
