

January 24, 2011

I would like to state that Kenneth Wilhelm and his staff are very caring, professional, experienced and knowledgeable. They were always available to discuss my son's case and have returned my phone calls as soon as humanly possible. They kept me informed even without me calling them. They obtained an excellent result for my son and the verdict they got, which was upheld by the Appellate Division, is the highest for this type of injury in the State of New York. Even after my son's case was finished and Mr Wilhelm's law firm was paid, they still call me to find out how we are doing and they help me with other matters without any charge. They do really care about my son and me and I would recommend them in a heart beat to all of my friends and family.
