Welcome Everyone Interested

I had a problem with my landlord. About every two month I have been asking him to repair a window in my room. Indeed some handymen came over and repaired it. Few weeks later I had the same problem and finally the window fell on my finger like a guillotine. I contacted the Law Offices of Kenneth A. Wilhelm. I was transferred to Jolanta Szymanska and everything started to go smoothly. An employee with a camera came over to my house. I told him what happened and the case was presented to the Court, and 6 month later my case was settled. I got compensation and it was enough to fully cover my medical treatment and time lost from work. I am satisfied with the work of this office. I recommend this office to everyone, who has a legal problem to solve.
